PROFESSIONAL PROFILE

Network Infrastructure, Security, and Automation Engineer with hands-on experience supporting enterprise manufacturing environments and mission-critical business operations. Experienced in Cisco Enterprise Networking, Fortinet Security, Windows Server, VMware ESXi, VMware vCenter, Linux Administration, and infrastructure automation using Python. Strong background in network operations, enterprise security, infrastructure monitoring, incident investigation, troubleshooting, logging analysis, and technical documentation, with a focus on delivering secure, reliable, and scalable IT services.

PROFESSIONAL EXPERIENCE

Network Infrastructure & Security Engineer

11/2025 – Present

Canal Sugar

Minya, Egypt

- Support enterprise network infrastructure across three production sites serving manufacturing and business operations.
- Administer Cisco enterprise networking, FortiGate security solutions, VMware ESXi, VMware vCenter, Windows Server, Linux, Active Directory, DNS, and DHCP services.
- Configure and maintain High Availability (HA), SD-WAN, IPSec VPN, SSL VPN, VLANs, Layer 2/Layer 3 networking, routing, switching, and firewall security policies.
- Configure and maintain IPS, Application Control, Web Filtering, NAT, SSL Inspection, and enterprise firewall security policies.
- Monitor enterprise infrastructure using Zabbix, HikCentral, Syslog, and centralized logging while performing incident investigation, troubleshooting, and root cause analysis.
- Develop automation tools using Python and Flask to automate IT operations, reporting, and infrastructure workflows.
- Produce technical documentation, implementation guides, network diagrams, and operational procedures.
- Work with vendors during troubleshooting, maintenance activities, software upgrades, and technical support cases.
- Collaborate with infrastructure and security teams to maintain high service availability and operational stability.

Senior IT Support Engineer

06/2024 – 11/2025

ISON Xperiences

Cairo, Egypt

- Delivered IT infrastructure support for more than 1,200 enterprise users in a high-volume enterprise environment.
- Administered Active Directory, Microsoft 365, DNS, DHCP, user accounts, permissions, and endpoint management.
- Resolved network, VPN, Wi-Fi, Windows, hardware, and security incidents while consistently meeting SLA targets.
- Supported enterprise infrastructure through onsite and remote troubleshooting, minimizing service disruption.
- Collaborated with infrastructure and security teams to maintain stable business operations.

Technical Support Engineer

06/2022 – 04/2023

Brains Company

Minya, Egypt

- Installed and maintained Windows systems, enterprise network devices, and end-user equipment.
- Supported CCTV systems, printers, desktop hardware, and network connectivity across customer environments.
- Diagnosed and resolved hardware, software, Windows, and networking issues while providing technical support.

EDUCATION

Bachelor of Computer Science

Minia University

Grade: Excellent with Honors

TECHNICAL SKILLS

Networking

Cisco Catalyst 9500, Cisco Catalyst 9300, Cisco Catalyst 9200, Cisco SG350, Cisco C1000, Cisco WLC 9800, Routing & Switching, Layer 2, Layer 3, OSPF, VLAN, STP, EtherChannel, Static Routing

Infrastructure

Windows Server, Active Directory, DNS, DHCP, Linux Administration, VMware ESXi, VMware vCenter

Monitoring & Operations

Zabbix, Syslog, Log Analysis, Wazuh SIEM, SNMP

Security

FortiGate, FortiAnalyzer, FortiAP, IPS, Application Control, Web Filtering, SSL Inspection, NAT, SD-WAN, IPsec VPN, SSL VPN, F5 BIG-IP ASM (WAF)

Automation & Development

Python, Flask, REST APIs, SQLite, MySQL, Git, GitHub, HTML, CSS

PROFESSIONAL DEVELOPMENT

Networking

- CCNA Enterprise Networking Training
- CCNP Enterprise Training

Security

- FortiGate Firewall Administration Training
- FortiAnalyzer Administration Training
- F5 BIG-IP LTM Training
- F5 BIG-IP ASM (WAF) Training
- Kaspersky Endpoint Security & EDR Training
- Cybersecurity Training (ITI)

Systems

- Windows Server Administration Training
- Linux Administration Training
- VMware ESXi & vCenter Administration

Additional Self-Study

- Enterprise Networking
- Network Security
- Infrastructure Automation
- Security Monitoring
- SIEM
- Python Automation

ACADEMIC PROJECT

Enterprise Campus Network Infrastructure Design

- Designed a complete enterprise campus network infrastructure covering routing, switching, enterprise security, virtualization, WAN connectivity, and enterprise services.

Technologies Cisco Routing & Switching • Cisco Wireless LAN Controller • FortiGate NGFW • F5 BIG-IP LTM • F5 BIG-IP ASM (WAF) • MPLS WAN • Site-to-Site VPN • Avaya IP Telephony • Windows Server • Linux Server • Active Directory Lab Environment PNETLab • VMware • GNS3

SIGNATURE PROJECTS

Network Operations Automation Platform

- Designed and developed automation tools using Python and Flask to automate daily IT operations, reporting, and repetitive infrastructure tasks.

Technologies Python • Flask • REST APIs • SQLite • MySQL

Zabbix Reporting Platform

Developed an automated infrastructure reporting platform that generates dashboards, scheduled reports, infrastructure availability metrics, and monitoring analytics to improve operational visibility.

Security Monitoring Lab

- Implemented a Wazuh SIEM lab environment for centralized logging, event correlation, Syslog collection, and security monitoring.
- Technologies Wazuh SIEM • Syslog • Linux
